## About Rebecca

Design psychology coach, author, and business happiness consultant Rebecca West helps people live happier, more successful lives.

She comes to design not from a love of sofas, but from a desire to create supportive and nurturing spaces. In fact, she doesn't really care if you ever buy a new sofa, she just cares that your home really works for you!

## LET'S TALK DESIGN PSYCHOLOGY! IS YOUR HOME MAKING YOU HAPPY?

Let's chat about how your space affects your health and happiness, and identify changes you can make to get happier at home! Available as a guest for podcasts, on TV, and wellness event.

## LET'S TALK THE BUSINESS OF DESIGN! IS YOUR DESIGN BIZ MAKING YOU HAPPY?

From creating sustainable systems to marketing that makes us sought-after designers, from pricing our services to hiring help, Rebecca has a passion for the business of design and host of ready topics to share via webinar or in-person business events.

**“Rebecca's talk inspired me, encouraged me, and helped me to grow! Her message is about so much more than interior design.”**

~ Maria Porter

**“I've been to a lot of talks on this subject, but none have been this practical or offered ideas that I felt so confident implementing. It was great!”**
